

KEOGH Consulting Celebrates 25 Years of Providing Professional Supply Chain Logistics Consulting Services

KEOGH specializes in the planning, design, and implementation of integrated material handling and information management systems for manufacturing, warehousing, and distribution companies. KEOGH's services include Logistics Network & Supply Chain Strategy, Operations Planning & Assessment, and Software Solutions.

During its 25 year history, KEOGH has worked with both large and small companies, and completed hundreds of projects, varying in complexity from basic to highly mechanized systems, including automated storage and retrieval, automated guided vehicles, sophisticated conveyor and sortation, and WMS systems.
